NOTES ON NEWS OF THE DAY.

MR. CLEVELAND still advises his Bourbon friends to stick to the free trade ship. The free trade ship is stranded on the upper shoals of Salt River.

Two jurors were obtained for the Kerr homicide trial in New York yesterday. They are Albert Teets, stove dealer, and Julius Hilborn, clothing salesman.

The Legislature is going to have the Hartford hotel roasting investigated. There are stories afloat which point to criminal proceedings in the construction of the building five years ago.

In the vote for Senator in the West Virginia Legislature yesterday, several members returned to Kenna and he received 33 votes. Goff received 42, and 13 others were cast. The session will close on Saturday.

HANNIBAL HAMEIN was given a magnificent reception by the Minnesota Legislature yesterday. Among the incidents was his introduction to Col. Pfender, who was a member of the Electoral College which cast the vote of the state for Lincoln and Hamlin 28 years ago.

The Utica Herald wishes the ceiling experts retained to examine and report upon the executive mansion job, the statesmanship of Gov. Hill and the quality of his service to the state. We greatly fear that the materials of the last two mentioned commodities would all turn out to be "paper maché."

It is pretty well settled that Hon. Warner Miller will not accept the portfolio of Agriculture. The New York Press states that General Harrison offered the position to Mr. Miller soon after the bill was passed, and that on last Thursday Mr. Miller sent his letter declining the position to the President-elect.

The Democrats in Congress have come down on the territorial question, and have agreed to let in all the territories in time to perfect their organization into states and elect Legislatures, Representatives and Senators before the regular meeting of the fifty-first Congress in December next.

The Albany Express asserts that yesterday, at every stage of the ceiling investigation "Chairman Ainsworth appeared to be the counsel for the defendants in this matter rather than the vigorous prosecutor of the case for the people." The conduct of Ainsworth will strengthen the suspicion that there was some truth in John Martin's story.

The Adams Express Company is at present engaged in removing \$7,000,000 from the vaults of the Philadelphia postoffice building to the United States Treasury at Washington. Each car contains \$1,000,000 in silver. The capacity of the same car for gold is \$10,000,000. The cars are built expressly for the service, and are lined with cast iron.

A LITTLE ROCK dispatch states that the assassins of Clayton are known, and that their arrest will make a big sensation. There is little doubt up this way that they have been known in the Democratic circles of Arkansas ever since January 29th. If they are arrested and hung, the sensation will extend throughout the country.

The selection of brave old Jerry Rusk of Wisconsin for Secretary of War is universally approved. The decisive way in which he put down the Milwaukee Anarchists is recalled with pleasure at the mention of his name. Foreign powers are not likely to expect any fun from a brush with the United States while Rusk remains at the head of the Department of War.

TO-DAY is the eleventh anniversary of the election of Pope Leo XIII. to his present position. He will complete his 79th year on the 21 of March next. Of the 60 Cardinals who participated in his election but 16 remain, and seven of these are eighty years old or older. The thirty-two years' service of Pius IX. is not likely to be repeated by Leo. Pius died at the age of 88.

GEN. HARRISON will not break the Sabbath on his trip to Washington. Instead of leaving Indianapolis next Sunday night he will take the train at noon on Monday and reach Washington at 2:30 p. m. Tuesday. The Pennsylvania route has been chosen, and the Presidential party will travel in the private car of President Roberts. The car has been repainted and newly furnished for the occasion.

The announcement is made that Mrs. Cleveland is going to make a few mild ventures in literature after her retirement from the White House. The Century magazine, it is understood, will be made the vehicle of her efforts. Mrs. Cleveland is not as mature in her thoughts as her sister-in-law Rose Elizabeth, but she may be able to demonstrate, as the elder lady did not, that the whirl of Washington society is favorable to the development of literary skill and ability.

The Tribune's Indianapolis correspondent thinks five members of Harrison's Cabinet are definitely selected. They are Blaine, Windom, Wanamaker, Rusk and Noble. The remaining departments are Navy, Justice and Agriculture. The Attorney Generalship may possibly come to New York, in which case Mr. Evans is named as the probable choice. Thomas of Illinois is still the favorite for the Navy, while the Agricultural portfolio may go either to Vermont, Michigan or California.

The tax refunding bill is not likely to become a law during this session. Though 40 Democrats voted for it on the original passage, there was filibustering yesterday by that party when the conference report was taken up for consideration. This sent the bill over till to-day. One Senator said he had received a "straight tip" from the President that he wished to kill the bill with a pocket veto. This he could not do unless the bill should reach him later than to-night, as he is required to return all bills to Congress within ten days, either approved or vetoed, unless Congress has adjourned in the meantime. Congress will have only ten working days after to-day. The bill will become a law, however, soon after the fifty-first Congress gets together.

The following is a resume of the business transacted by the State Legislature to-day:

INTENSE INTEREST SHOWN.

ALBANY, Feb. 20.—In the Assembly there was intense interest shown everywhere this morning in the session of the House owing to the expectation that there would be some sensational disclosures in the ceiling case. It was known that a resolution for the suspension of Superintendent Andrews would come up and it was expected that a lively time would be made by Fish and others because certain disclosures had been made out by the Appropriations Committee yesterday afternoon. These expectations were not disappointed. The galleries and lobbies were crowded to the doors. As soon as the House opened, the first business was the reading of the report of the Committee on the ceiling case.

McMaster made a speech, not at all complimentary to the Appropriations Committee, in which he was responsive to the suggestion that the Appropriations Committee should never have been empowered to investigate one of their members who confessed to having been approached, and when asked for specifications about the ceiling case, he said he would be investigated by the Grand Jury of Albany or New-York, or prosecuted by the Attorney General.

IN DEFENSE OF THE COMMITTEE.

Ainsworth made a long speech in defense of his Committee. The Committee did not desire to do a thing but to get the facts out and let the people decide. He then paid his respects to Fish, saying the federal backed men had scarcely grown colder after the investigation which he and others had conducted. He then referred to Fish as "his friend."

"Don't call me friend," interrupted Fish. "Very well," retorted Ainsworth, "then I will call you the House's hellhound, and be such a hellhound as to get the facts out and let the people decide. He then paid his respects to Fish, saying the federal backed men had scarcely grown colder after the investigation which he and others had conducted. He then referred to Fish as "his friend."

plans were carried out. I was not desirous to substitute paper mache for oak. I never tried to keep the fact of the substitution secret. I refused admission to the work all through so as to prevent danger and delay. After beginning the work it was found necessary to change the iron plans as to material. The plans of some service. The plans were first drawn without reference to the upper floor; they were radically changed; the alteration of the size of the panels made necessary a smaller number of iron beams, but could not tell how many less without looking it up. T. J. Sullivan did the iron work; did not know Sullivan had bid before the bids were opened; did not know he was figuring on it, but knew he was figuring about Capital work all the time. I never had any arrangement with Sullivan to share part of the profits with him. He thought the cost of putting in paper introduced into the spandrels was just about the same as the same designs in carved oak. He figured originally on oak. Andrews authorized him to make the change. He would not have done it on the architect's request. The change in the spandrels was determined on at the same time as the panels; did not regard the reduction of the number of panels—about one-half—a radical change. Architect Rowe made up for items of 1,431 feet of carved facings and 830 feet of the same; don't know of any such moldings being used in the work; they may have been used as continuations of the spandrels."

A RECESS TAKEN.

The Committee then adjourned until this afternoon when the examination of Snaith was resumed.

A WORDY CONFLICT.

During the course of the investigation there was a wordy conflict, this morning, between Mr. Fish and Chairman Ainsworth. Ainsworth's motion that every member who wishes may ask questions, was carried, but Fish asked to know whether this meant what it said, or whether the chairman was to be permitted to rule out questions as he saw fit. He asked a vote on that.

Ainsworth said: "It is not necessary to poll the Committee on a point upon which they are unanimous."

Fish— "It is not unanimous, and no one knows it better than the Chairman."

Martin said Fish would not make anything by being personal.

Fish to Martin— "I said if you would allow me to introduce two witnesses I thought I could settle your case."

Ainsworth declared this was disrespectful to the Committee. The Committee would allow any person to ask any question, subject always to the exception of immaterial or improper it might be ruled out.

Fish— "Do you refuse to allow the testimony of contractors and sub-contractors showing the amount they received, and yet refuse to permit Contractors to bring witnesses and experts to impeach the testimony of the experts who presented their report? This indeed is a pitiable spectacle."

Ainsworth— "You seem to desire a quarrel with me, Mr. Fish, but I will not quarrel with you. I am sorry I don't meet your approval."

Fish— "You may meet Andrews."

TO SUSPEND ANDREWS.

The Assembly adopted unanimously Fish's resolution calling on the Capitol Commissioners, the Governor, the Lieutenant-Governor and Speaker, to suspend Superintendent of Public Buildings Andrews pending the result of the investigation into the construction of the Assembly building.

A "BOARD'S" REPORT.

The members of the Board of Mediation and Arbitration submitted their annual report this morning and also handed in a special report in compliance with the resolution of the Board for full information. In the Board's possession in relation to the late difficulty between certain railroad companies and their employees in New-York City and Brooklyn.

IN THE SENATE.

Bills passed: Sloan's, for the payment of the printing authorized by the concurrent resolutions of the session of 1888. Robertson's, to prevent attendance of children under 16 years of age at dance houses, skating rinks and other places where liquor is sold. Lewis', relative to extending the time for towns to refund bonds issued in aid of the New-York Oswego and Hamilton Railroad. Deen's, relative to appeals in the case of teachers' wages. Vedder's, exempting agricultural and horticultural associations from the incorporation tax. Coggeshall's, requiring the filing of statements in the County Clerk's office of lands sold for tax. Hendricks', amending the incorporation act of the American Missionary Society. Grady offered a resolution to the effect that the Senate should adjourn to-day, the 21st of February, in honor of the day of the Monday evening. Kellogg amended by inserting "to-morrow" in place of to-day. The resolution, as amended, was adopted.

The Republican Senators, in caucus this afternoon, decided that the Senate should take an inauguration vacation from March 1 to March 11. A Committee to revise the rules was agreed on with Raines as Chairman.

THE C. S. PARNELL COMMISSION.

Certain Letters That Pigott Wrote Destroyed—Testimony Given in London To-Day.

By Cable to The Freeman.

LONDON, Feb. 20.—When the Parnell Commission met this morning the Court room and its precincts were crowded. Mr. Parnell was present. Mr. Houston, Secretary of the Irish Liberal and Patriotic Union, was further cross examined. He said he destroyed Pigott's letters to him in accordance with an agreement made between them that they were intended for the witness's eyes alone and were not to be used publicly. Up to the time the witness went to Paris Pigott had not given him the names of any of the persons connected with the letters secured by the Times. He did not consider that a knowledge of the men from whom the letters were obtained was important in connection with the question of their genuineness. Witness said his part was done when the letters were obtained. He accepted them without securing any means of testing Pigott's statement in the event of their genuineness being questioned because he understood it was useless to attempt to make a complete case, and further inquiries would only handicap himself. He had no means whatever of testing any part of Pigott's story, which he regarded as probable, especially as to the newspaper reports of the dispute between Parnell and the American extremists, to some extent, confirmed Pigott's story that the letters were left in a bag found in a room in Paris. Witness accepted the letters solely on Pigott's word. Two days before the Commission opened Pigott wrote him an abusive letter, demanding that after giving testimony he should be given 5,000 pounds.

★ BRIGHT'S DISEASE. ★

A Ten-Year-Old Child Saved After the Failure of Four Physicians.

My little girl, ten years of age, was taken sick in March, 1888, with scarlet fever. When recovering she took a severe cold, which developed Bright's Disease of the Kidneys. Her ankles, feet and eyes were terribly swollen, she had a burning fever, and all the symptoms of an aggravated case of Bright's Disease. Four of our best physicians attended her, but without success, and

Her Life was Despaired of.

But a mother's love and prayers surmount all difficulties, and I determined to try Dr. David Kennedy's Favorite Remedy, made at Rondout, N. Y. This was a last resort, and I hoped, although my little daughter's case was a very severe one, that the Favorite Remedy would do for her what it had done for others whose condition had not been, seemingly, as hopeless. How happy I am that I determined upon this course for an improvement was at once perceptible. The fever left her, her appetite improved—she gained six pounds in a short time, and one by one the well known and dreaded symptoms of the disease left her. Words fail to express my gratitude and I cannot too earnestly recommend the Favorite Remedy. It was

A MARVELOUS RECOVERY

and is due entirely to the Favorite Remedy, which was the only medicine taken after her case was abandoned by the physicians.

Mrs. Laura A. Kemper, West Rutland, Vermont. The diseases that follow Scarlet Fever, Measles, Diphtheria and various other complaints often leave behind them sequelae of the most obstinate and dangerous character. To expel all traces of such disorders, tone up the various organs, and fill the veins with pure and nutritious blood, use

By Telegram to The Freeman.

SAN FRANCISCO, Feb. 20.—The suspicions of Customs officers here have been aroused by the increase in the number of Chinese passengers on coast steamers from Port Townsend, Washington Territory. The officers of vessels on the Sound declare Coolies are being constantly smuggled over the border, and when once in this country they can go anywhere they please.

Where the Death Rate is Large.

MARION, Ky., Feb. 20.—A disease made its appearance in Webster County a few weeks ago. It raged disastrously for a time, and it was feared that it had spent its fury, as no new cases were reported for 10 days. It has appeared in a more violent form than before. It has broken out near Dixon, the County seat, and nine new cases have developed. Four deaths occurred Saturday, and the other three patients are not expected to live. Five more new cases developed yesterday. The malady is confined to a small territory bordering on a small stream called Crab Orchard Creek. In one family of seven only one patient escaped. Up to the present only two patients have recovered, and one of these is totally blind and the other a cripple for life. Up to date there have been over 50 deaths. At one cemetery last Saturday there were four burials. The Doctors are not able to diagnose the disease. The majority think it is cerebro spinal meningitis of the congestive malignant type. The patient is taken with sharp pains in the spine, which soon reach the brain, followed by violent cramps and convulsions from which death ensues.

BRIGHT'S DISEASE.

A Ten-Year-Old Child Saved After the Failure of Four Physicians.

My little girl, ten years of age, was taken sick in March, 1888, with scarlet fever. When recovering she took a severe cold, which developed Bright's Disease of the Kidneys. Her ankles, feet and eyes were terribly swollen, and she had a burning fever, and all the symptoms of an aggravated case of Bright's Disease. Four of our best physicians attended her, but without success, and she was despaired of.

Her Life was Despaired of.

But a mother's love and prayers surmounted all difficulties, and I determined to try Dr. David Kennedy's Favorite Remedy, made at Rondout, N. Y. This was a last resort, and I hoped, although my little daughter's case was a very severe one, that the Favorite Remedy would do her what it had done for others whose condition had not been, seemingly, as hopeless. How happy I am that I determined upon this course for an improvement was at once perceptible. The fever left her—her appetite improved—she gained six pounds in a short time, and one by one the swellings and dreaded symptoms of the disease left her. Words fail to express my gratitude and I cannot too earnestly recommend the Favorite Remedy. It was

A MARVELOUS RECOVERY

and is due entirely to the Favorite Remedy, which was the only medicine taken after her case was abandoned by the physicians.

Mrs. Laura A. Keim, West Rutland, Vermont. The diseases that follow Scarlat Fever, Measles, Diphtheria and various other complaints often leave behind them sequelae of the most obstinate and dangerous character. To expel all traces of such disorders, tone up the various organs, and fill the veins with pure and nutritious blood, use

The Board has its usual deadlock over the selection of a Chief of Bureau to replace the late J. J. O'Brien.

Edward Hughes, Jr., of 109 Siegel-street, Williamsburg, was arraigned yesterday before Justice Nacher, in Brooklyn, accused of stealing a dog of a cemetery plot. The complainant was his father, who had been prevented from burying a grandchild in it because he did not have the deed. The son showed that he had purchased the plot from his father. He, however, at the Justice's suggestion, gave a permit to his father for the burial of the child.

IN AND ABOUT THIS TOWN.

WHAT PEOPLE FOUND TO TALK ABOUT HERE TO-DAY.

Amalgam of Friendly Societies Here and Elsewhere.—M. C. A. Delegates—Harvesting the Ice Crop—The Record of City Amusements.

Nothing is so uncertain or so difficult to form a judgment of, as the minds of the multitude.

LOCAL CHURCH AND Y. M. C. A. WORK.

John Heald has been sexton of Zion Episcopal Church, Wappingers Falls, for 25 years.

It is said that the Rev. J. Leggett, of Claverack, has been called to preach in New York, N. Y.

The next meeting of the Hudson River Ministerial Association will be held in the Second Reformed Church, Coxsack.

The Baptists of Meridith Square, Delaware County, have requested the Rev. J. Barrons to recall his resignation and remain with them.

St. Mary's Catholic Church, Rondout, was crowded last night. The Rev. Father Langcake, one of the Jesuit Fathers, preached on the subject of "Hell," and his description of the future place of punishment for sinners made some of his audience feel uncomfortable. He ridiculed Luther's idea that there is no hell, and asked those who were not leading a Christian life to do so before it was too late.

Every Christian on earth is on his way to the Heavenly country, and of that country the Bible has certainly given him some information. That information, while leaving much for him to learn, has given him the assurance that a good heaven is waiting for him. It is his duty to pursue the journey, and cheer him with the thought of what is before him. He is at last crossing the river, and entering the peaceful harbor on the other shore. There, happy and as wise as he is, he will find that the knowledge practically sufficient, and takes the road that leads into life and happiness eternal.—New York Independent.

The correspondent of THE FREEMAN at Marlborough writes: "The semi-centennial of the erection of Christ Episcopal Church, in this village, will occur September 10, 1889. The church was consecrated by Bishop Onderdonk, in September, 1839. In his address of welcome the Bishop said:—

"The union in this church of economy with great meanness, I would commend to the imitation of all churches who would have the best of these good things of building in strict conformity with their means."

The first Episcopal Sunday School was organized by the Rev. George W. Fash, in 1840. Since that date the school has been one of the most flourishing in Ulster County.

STILL HARVESTING THE ICE CROP.

The Fields Did Not Waste Any Last Night or To-day's Long Frost.

VARIOUS SPORTING MATTERS NOTED.

What a Roundout Ice Yachtman Says—News From Saratoga, Etc.

A flock of wild geese was observed flying over the waters of the Hudson River at Newburgh to-day.

A large number of people, young and old, were seen skating on the creek in front of the village of South Rondout, yesterday. It made a pretty picture, as viewed from the Rondout hills.

Peter Fox, a member of the Rondout Ice Yacht Club, said this afternoon: "It is many years since the Hudson River in this vicinity was in such splendid condition for ice skating as now it is, either north or south of the track of the ferry-boat. I doubt if the members of the club will compete in races for prizes on account of the lateness of the season, several of them being loth to get their boots in shape for sailing on that account. However, if the ice remains as it is now for a few days they may possibly change their minds, and some good sport may yet be had."

Weston, Chairman and W. A. Goehring, Secretary. It was proposed to form a stock company to build the hall with shares at \$10 each. Shares to the amount of \$1,040 were immediately subscribed for. A committee was appointed to perfect organization. An adjourned meeting will be held at the factory of Bell Brothers on Tuesday evening, February 26."

THE RECORD OF CITY AMUSEMENTS.

"Check" Last Night—Cleveland-Haverly Minstrels at Kingston Opera House.

The Guy Brothers' Minstrel will hold forth in Liscomb's Opera House, Rondout, on the night of Washington's Birthday.

In Liscomb's Opera House, Rondout, on Monday evening, March 18, Miss Settle Blume, of New-York City, well and favorably known here as the "Lioness," assisted by Miss Crosby, of Rondout, will give an entertainment, in the aid of the fund to help build a new place of worship for the "Congregation Emanuel," of this City. That Miss Blume and Miss Crosby will be greeted with a full house goes without saying.

"Check" was presented by Roland Reed and company in Kingston Opera House last night. The plot is well constructed and the actors and actresses are among the best ever seen or heard in this City. "The Lioness," "Nell," is a sunbeam. She is merry pretty much all the time and never coarse. Miss Earle, as "Mrs. Racket," made a hit. Her satirical laugh is something peculiarly her own. Mr. Reed, of course, was capital. He always is.

The "Deshon Opera House Company" will open a week's engagement in Kingston Opera House on Monday. Concerning the company has been printed by the Harrisburgh Patriot.

Every available place in the Opera House was occupied last night upon the occasion of the performance of "Chimes of Normandy" by the Deshon Opera Company and the Opera House was filled to the largest audience of the season. The performance was the best ever seen in this City. The satisfaction of the audience seemed supreme. Mr. Deshon's "Gaspard" is a still better actor than his former role of "The Jew." Last night it seemed that he could not be improved upon. The company is large and strong, better than Deshon has ever had, and the company's orchestra is a very skilled one. The attraction to night will be by Deshon, and already a large number of seats have been sold.

The Cleveland-Haverly Minstrels, 60 strong, will make merry in Kingston Opera House to-night. The Deshon News has said this:

An audience that filled every seat and most of the aisles of the Opera House greeted the new features of minstrelsy that Haverly and Manager Cleveland have gathered together in this City. It is the newest and best minstrel performance ever given in Deshon. To start with, yet it is not the minstrel show in which theatre goers have been nauseated since the late war. Haverly's show chronicles a new era in minstrelsy. There is no more of the "black and white" about it than we have been accustomed to having. It is rather a new and pleasing picture of an old frame. There is the first part, that fascinating aggregation of handsome and unique costumes, colored men, vocalists, and real men, kept out of patient interest. There is a clog dancing and a march and a comedy. These in the abstract are old friends. Many nights have we greeted them, yet never in so elaborate and clever a manner as Haverly and Cleveland give them. The first part is original, the costumes handsome and rich, the jokes amusingly good, and the singing of the first part presented by burnt cork enterprise and ingenuity. Then follows the specialty features. The first is the "Haverly's" "The March of the Haverly's," a song and dance. The second is "The March of the Haverly's," a song and dance. The third is "The March of the Haverly's," a song and dance. The fourth is "The March of the Haverly's," a song and dance. The fifth is "The March of the Haverly's," a song and dance. Yes, you have felt all these things, and doubts have kept tens of thousands of men, women and children every year solely because these weaknesses were allowed to sap up the well springs of life. There is not a sensible maid, wife or mother who will not appreciate as more valuable than gold and silver, a bottle of **WADSWORTH'S LUNETTO**, which is safe, sure, and speedy in curing the worst case of female weakness.

LOCAL CHURCH AND Y. M. C. A. WORK.

John Hadd has been sexton of Zion Episcopal Church, Wappingers Falls, for 25 years.

It is said that the Rev. J. Leggett, of Claverack, has been called to preach in New York, N. J.

The next meeting of the Hudson River Ministerial Association will be held in the Second Reformed Church, Coxsack.

The Baptists of Mendon Square, Delaware County, have requested the Rev. J. Barrows to recall his resignation and remain with them.

St. Mary's Catholic Church, Rondout, was crowded last night. The Rev. Father Langcake, one of the Jesuit Fathers, preached on the subject of "Hell," and his description of the future place of punishment for sinners made some of his auditors feel uncomfortable. He ridiculed Ingersoll's idea that there is no hell, and asked those who were not leading a Christian life to do so before it was too late.

Every Christian on earth is on his way to the heavenly country, and of that country the Bible has certain given him some information. That information, while leaving much for him to learn when he gets there, assures him that it is a goodly land. It tells him to pursue the journey, and cheer him with the thought of what is before him. He will at last cross the river, and enter the peaceful harbor on the other shore. Three happy, and as happy as the man who takes that knowledge practically, and makes the road that leads into life and happiness eternal.—New York Independent.

The correspondent of THE FREEMAN at Marlborough writes: "The semi-centennial of the erection of Christ Episcopal Church, in this village, will occur September 1st, 1889. The church was consecrated by Bishop Onderdonk, in September, 1839. In his address of welcome the Bishop said: 'The union in this church of economy with great neatness, I would commend to the imitation of all churches who would pursue the honest and Christian course of building in strict conformity with their means.'

The first Episcopal Sunday School was organized by the Rev. George W. Fash, in 1840. Since that date the school has been one of the most flourishing in Ulster County."

STILL HARVESTING THE ICE CROP.

The fields did not waste any last night or to-day. Long shore.

VARIOUS SPORTING MATTERS NOTED.

WHAT A WOULD-IT ICE Yachtman Says—News for Amateurs, Etc.

A flock of wild geese was observed flying over the waters of the Hudson River at Newburgh to-day.

A large number of people, young and old, were seen skating on the creek in front of the village of South Rondout, yesterday. It made a pretty picture, as viewed from the Rondout hills.

Peter Fox, a member of the Rondout Ice Yacht Club, said this afternoon: "It is many years since the Hudson River in this vicinity was in such splendid condition for ice boating as now it is, either north or south of the track of the ferry-boat. I doubt if the members of the club will compete in races for prizes on account of the lateness of the season, several of them being loth to get their boats in shape for sailing on that account. However, if the ice remains as it is now for a few days they may possibly change their minds, and some good sport may yet be had."

Weston Chairman and W. A. Goehring Secretary. It was proposed to form a stock company to build the hall with shares at \$10 each. Shares to the amount of \$1,040 were immediately subscribed for. THE RECORD OF CITY AMUSEMENTS.

"Check" Last Night—Cleveland-Haverly Minstrels at Kingston Opera House.

The Guy Brothers' Minstrels will hold forth in Liscomb's Opera House, Rondout, on the night of Washington's Birthday.

In Liscomb's Opera House, Rondout, on Monday evening, the Guy Brothers' Minstrels, of New York City, will perform. The Guy Brothers' Minstrels will be greeted with a full house goes without saying.

"Check" was presented by Roland Reed and company in Kingston Opera House last night. The plot is well constructed and the actors and actresses are among the best ever seen or heard in this City. Miss Lewis, as "Nell," is a suburban. She is very pretty much all the time and never coarse. Miss Earle, as "Mrs. Racket," made a hit. Her satirical laugh is something peculiarly her own. Mr. Reed, of course, was capital. He always is.

The "Deshon Opera House Company" will open a week's engagement in Kingston Opera House on Monday. Concerning the company this has been printed by the *Harrisburgh*.

Every available place in the Opera House was occupied last night upon the occasion of the performance of "The Guy Brothers' Minstrels." The company and the Opera House managers state that it was the largest audience of the season. The performance was of a high order, and the company's satisfaction of the audience seemed supreme. Mr. Deshon's "Gaspard" is a still greater improvement upon the original, but last night it seemed that it could not be improved upon. The company is large and strong. The orchestra is a very skilled one. The attraction to night will be "Ermine," and already a large number of seats have been sold.

The Cleveland-Haverly Minstrels, 60 strong, will make merry in Kingston Opera House to-night. The *Denver News* has said this: "An audience that filled every seat and most of the aisles of the Opera House greeted the new features of minstrelsy that Cleveland-Haverly Minstrels have gathered together this season. It is the newest and best minstrel performance ever given in this city. The start with, yet it is not the minstrel show with which theatre goers have been nauseated since the late Haverly's success. It is a new and original minstrel. There is less of the copy of negro characteristics about it than we have been accustomed to see. The best of the Haverly Minstrels, all of which are seen for the first time here. The first part is presented by a quartet of four, composed of four of the best vocalists of the company. The quartet is a song and dance piece, and is very well executed. The second part is a song and dance piece, and is very well executed.
